*Abby Heller-Burnham*

*Abby Heller-Burnham, a native New Yorker, is currently an active member of the vibrant artist community of Philadelphia. Upon graduation from the world renowned Pennsylvania Academy of the Fine Arts, she was awarded both the Gamblin and Stimson prizes for outstanding achievement. Abby's successful showings at PAFA and several galleries in Philadelphia - most recently at the prestigious Artist's House Gallery - has resulted in a growing and enthusiastic clientele throughout the Northeast.*

*In addition to her outstanding original works, Abby is often commissioned to produce portraits based on photographs -- even severely damaged ones - provided by her clients. Drawing from her technical skill and knowledge of anatomy, she recreates the images of her subjects (not the photographs themselves) with a life-like, painterly naturalism that surpasses photo-realism.*

*Artist's Statement:*

*I use a combination of naturalism and spontaneity to represent certain aspects of what I have seen and experienced during semi-conscious dream states. My work portrays an ethereal luminosity that creates life-like spaces which the viewer can visually enter. My goal is to create increasingly complex compositions by combining multiple images from a vast collection of visual references. With a highly disciplined background in traditional methods and techniques as a base, I nevertheless strive to expand its boundaries to find new artistic approaches through continual experimentation.*

*I find nineteenth century naturalism to be particularly inspiring. Its simplicity of design, complex esthetic content, and distinct atmospheric quality all resonate with my artistic sensibilities. Klimt and Mucha, for example, have been important influences, particularly their unique blend of graphic patterns and textures with natural realism.*

*I am always in the process of finding my own delicate balance between naturalism and other contradictory interests that also inspire me. I believe that a versatile and experimental approach leads to the resolution of this conflict, and allows me to reach beyond realism to more fully express my ideas.*

*Artodissey,*

*é muito difícil actualmente aceder ao vosso extraordinário blog.  
Penso que tem muito peso em imagens, que o torna muitíssimo lento para aceder à página.  
Ou será da música?*

*Deixo esta nota para vossa apreciação.*

*Obrigada,*

*I would like to contact the owner of the Blog Artodissey, for a business opportunity. Can anybody put me in touch with him/her?*

*m.a.*

*Em primeiro lugar obrigada pelas palavras de apreço.  
Em relação à lentidão para abrir a página não sei o que estará na sua origem. Sempre tive um número assinalável de imagens e de grande dimensão. Para minimizar o peso da página alterei um post por página.  
Os slides e a música também cá estão desde o início, não houve qualquer alteração significativa a não ser as pequenas etiquetas para partilha ...  
Posso-lhe adiantar que não consigo abrir o meu blog com o I.E., mas com o Mozilla é bastante rápido e com o Opera mais ainda. Será que a m.a. usa o internet explorer?*

*Tenha uma boa noite e obrigada pela nota, não fazia a mínima ideia do problema dado o número considerável de visitas que o blogue apresenta*

*Criss*

*I really appreciate your attention but this blog has no monetary purpose. It is simply a site dedicated to the art. Nothing more nothing less.  
If you still want to say anything more, you can leave your message here. Have a good night and thanks again*
